## Polyurethane Knee Pad

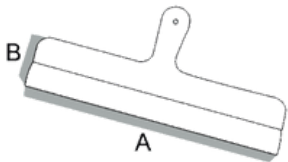

**NEW  
PRODUCT**

CODE	PRODUCT	A MM	B MM	
341	Poliüretan	135	160	12

- The product is CE certified Made of polyurethane material EN 14404:2004+A1:200 Manufactured according to the standard.
- It is used to protect the knees of builders, cleaners, pumpers and all kinds of jobs that require kneeling.
- Thanks to the special graduated connecting rubber on it, it can be adjusted to the person. It can be tied at the knees.
- Thanks to the sand surface on the inside, the knee pads do not slide over clothing. It ensures comfortable use. Prevents sweating during use.
- When working while kneeling, a load of approximately 89% of the body weight is exerted on the knees. Knee pads are wide between the floor and the knee
- By creating a surface we distribute the weight we put on the knees, reduce the force transmitted to the kneecaps and prevent our knees from working.
- It helps protect your health due to its conditions.
